PROFESSIONAL SUMMARY

Product-minded frontend engineer with 7+ years of experience building accessible, high-performance SaaS products. Led design system adoption across four product teams and improved core web vitals for customer-facing applications serving more than two million monthly users.

EXPERIENCE

Senior Frontend Engineer Northstar Technologies

Jan 2022 - Present

- Led migration of a multi-tenant analytics product to Next.js, reducing median page load time by 42%.
- Created an accessible component system used by 28 engineers, cutting feature delivery time by 30%.
- Partnered with product and design to ship onboarding improvements that increased activation by 18%.

Frontend Engineer Cloudline Systems

Jun 2019 - Dec 2021

- Built reporting workflows in React and TypeScript for more than 400 enterprise customers.
- Introduced automated accessibility testing and reduced high-severity violations by 85%.
- Improved frontend observability and reduced mean time to resolution for UI incidents by 35%.

PROJECTS

Open Metrics Studio

Live • GitHub

Designed and built an open-source dashboard for exploring web performance data with configurable reports and accessible data visualizations.

Technologies: Next.js, TypeScript, PostgreSQL, Playwright

Component Quality Toolkit

GitHub

Created a CI toolkit that validates component accessibility, visual regressions, bundle size, and documentation coverage.

Technologies: React, Storybook, Axe, GitHub Actions

EDUCATION

Bachelor of Technology, Computer Science National Institute of Technology

2015 - 2019

SKILLS

TypeScript • React • Next.js • Node.js • Accessibility • Design Systems • Testing • Performance • Product Analytics
